School Manager

... a complete solution for schools

Problems with existing system ???

- Difficult to search & maintain student's details.
- Difficulty in tracing staff details.
- Difficult to maintain staff salaries.
- Not able to access grades and comment entry.
- No backup to recover old records and other details / entries.
- Difficult to create time table and schedule.
- Difficult to maintain manually fee details of students.
- Take long time to generate student progress report.
- Take long time to fill records and slow data entry.
- Difficult to maintain records like TC and other certificates etc...
- And many...

SCHOOL MANAGER is a comprehensive SCHOOL MANAGER Software that brings greater organization and effectiveness to the full range of activities in a school. SMS provides for easy, accurate and timely retrieval of Data and activity-oriented information through menu driven, user-friendly operations.

SMS makes the functioning of the organization very lucid and the way it should be presented to the top level manager - transparent.

SCHOOL MANAGER particularly developed to manage the daily **school tasks** such as Admissions, Fee Structure Creation, and Fee Submission and **Defaulters** List(students who have not submitted fees for a particular month), Examination Management and **Time Table** Creation(Both Teachers and Class-wise). With the help of SMS, SCHOOL MANAGER authorities can fully utilized the IT resources of their school in a great way.

Here we are introducing our product, **SCHOOL MANAGER**. It is 100% suitable and customized software for schools sector which is including various modules as given below:-

- **Administrator**
- **Admission**
- **Fee**
